

# Protect Your Kids From Secondhand Smoke

**The #1 place**  
where children breathe  
secondhand smoke is in  
their own homes

Infants exposed to SHS have  
**twice the risk**  
of Sudden Infant  
Death Syndrome (SIDS)

**50% increased**  
risk of bronchitis & pneumonia  
in first 2 years of life from SHS

**More than 40%**  
of child emergency room visits  
for asthma are due to SHS

**More than  
300,000**  
children per year  
get bronchitis,  
pneumonia &  
ear infections  
from SHS
